ABSTRACT

This report presents fall 2002 enrollment figures for Maryland colleges and universities in tabular form. In 2002, total headcount enrollment at Maryland's colleges and universities rose by 3.9%, or 11,085 students, to 298,776. This was the highest enrollment in the state's history, and the increase in the past 2 years was the biggest since the 1974-1975 school year. In the past 20 years, total enrollment in Maryland has grown by 27.7%, with enrollments rising for 6 straight years. Community colleges were responsible for 47.7% of the statewide increase. Public four-year colleges and universities, which increased enrollment by 3.2%, accounted for 36.9% of the statewide growth. Independent colleges and universities, which increased enrollment by 3.3%, represented 15.3% of the growth. Most of the enrollment increase was attributable to a 4.8% rise in the number of full-time undergraduates. Part-time undergraduate enrollment increased by 2.2% in the past year, with community colleges representing all of the growth. Full- and part-time graduate and professional enrollments were the highest on record in 2002. In that year, women continued to outnumber men, making up 59% of all students. (SLD)

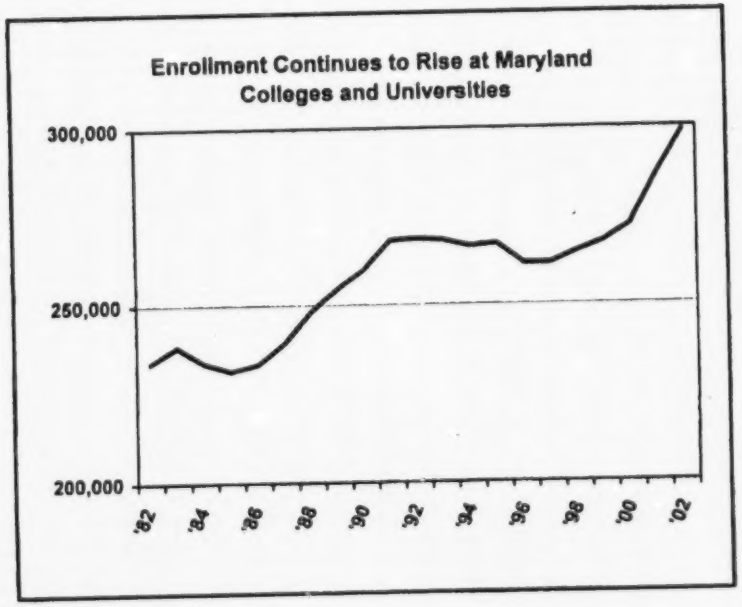
Fall College and University Enrollment Sets Record for Second Year in a Row

The following report highlights enrollment data submitted by the State's colleges and universities. Final numbers may vary slightly due to students enrolling or dropping out by November 15, the last date on which 2002 enrollment figures are reported to the Maryland Higher Education Commission.



- This year, total headcount enrollment at Maryland's colleges and universities rose by 3.9 percent, or 11,085 students, to 298,776-- **the highest enrollment in the State's history. The increase in the past two years has been the biggest since 1974-1975.**

- During the past 20 years, total enrollment in Maryland has grown by 27.7 percent. Enrollments have risen in the State for six straight years.

- Community colleges were responsible for 47.7 percent of the statewide increase, growing by 4.8 percent. Public four-year colleges and universities, which increased enrollment by 3.2 percent, accounted for 36.9 percent of the statewide growth. Independent colleges and universities increased enrollment by 3.3 percent and represented 15.3 percent of the growth.

- Most (55.7 percent) of the enrollment increase was attributable to a 4.8 percent rise in the number of full- time undergraduates. Full-time undergraduates have grown for nine consecutive years – or by 24.7 percent since 1993.

- Part-time undergraduate enrollment increased by 2.2 percent in the past year, with community colleges representing **all** of this growth. While the number of part-time undergraduate students rose by 3.8 percent at the community colleges, these enrollments fell at the public four-year campuses and the independent institutions.

- The number of new full-time freshmen increased by 3.7 percent since last year to a record high of 33,433. Nearly two-thirds of the total growth took place in the community college sector, where the number of new full-time freshmen increased by 6.1 percent. Independent colleges and universities experienced gains of 9.5 percent. Public four-year institutions experienced a decline of 1.2 percent, reflecting in part the decision of several campuses to limit the enrollment of these students for admissions selectivity or capacity reasons.

- Full and part time graduate and professional enrollments were the highest on record. The number of full-time students grew by 9.9 percent since last year and has nearly doubled in the past 20 years. Part-time students grew by 1.8 percent in the past year and by 87 percent since 1982.

- Among public four-year institutions, University of Maryland University College experienced the highest one-year total headcount growth rate (8.1 percent); it also gained the most in terms of numbers of students (1,797). This is the fourth year in a row that UMUC led the public four-year campuses in enrollment growth. All but three of the State's public four-year institutions increased their total headcount over last year. At the State's historically black colleges and universities, enrollments rose by 6.4 percent at University of Maryland Eastern Shore and 2.9 percent at Morgan and fell by 4.4 percent at Bowie and 3.0 percent at Coppin.

- Every community college in the State experienced an enrollment increase except Garrett College, which lost just two students. Anne Arundel Community College grew by 1,001, the largest increase in number of students. Cecil Community College experienced the greatest percentage gain, 13.7 percent over last year's headcount.

- Women continue to outnumber men, making up 59.0 percent of all students. Women also comprised 68.4 percent of the increase in Maryland headcount enrollment.
